

## Getting Started with Your Hotspot

### Charging the Hotspot

1. When the Hotspot battery indicator shows a low battery, it is time to charge the Hotspot.
2. Plug the connector of the Hotspot power cable into the port on the front of the Hotspot. The Franklin T9 Hotspot uses a micro-USB cable, while the Franklin T10 Hotspot uses a USB-C cable.
3. Plug the Hotspot power cable into an electrical socket.
4. Confirm that the battery is charged by turning on the Hotspot and checking that the device's home screen shows a full battery.
5. The Hotspot is ready to be used.

### Turning on the Hotspot

1. Hold down the power button for 3 seconds.
2. When the device is on you will see the home screen light up.

### Connecting the Hotspot to a Laptop, Tablet, Phone, etc.

1. Turn on the Hotspot.
2. Click Settings on your laptop, tablet, phone, etc.
3. In Network Settings, select Wi-Fi.
4. A list of available networks will display. Select the Wi-Fi name of the Hotspot.
5. Note: Press the Power button on the Hotspot several times until the Hotspot name appears on the Hotspot LCD display.
6. Enter the password of the Hotspot.
7. Note: Press the Power button on the Hotspot again. The Hotspot password appears on the Hotspot LCD display.
